One-Pager Summary of Emergency Management Planning Guide

DPS (UPC) Emergency: 213-740-4321 Non-Emergency: 213-740-6000	DPS (HSC) Emergency: 323-442-1000	Immediate Threat 911	California Poison Control Hotline 1-800-222-1222
Los Angeles Police Department (LAPD) Non-Emergency: 877-275-5273	LA County Department of Children and Family Services (Child Protection Hotline): 1-800-540-4000	Office of Youth Protection: 213-740-2656	Environmental Health and Safety: 323-442-2200
USC Student Health 213-740-9355	USC SciBAT Lead 626-416-7586	Socal Science Olympiad 626-277-9848	TrojansAlert by texting TrojansAlert to 888777

Major Emergency Evacuation Locations:

Evacuation Site	Alumni Park	Parking Lot K2	Exposition Blvd	Epstein Family Plaza	Child's Way	Felix Field
Applicable Buildings	ADM, DMC	SGM, GFS	HAR	EEB, OHE	MCB, RRI, TCC	PED
Evacuation Site	Founders Park	Downey Structure S/W Corner	George Tirebiter	Bloom Walk	McCarthy Quad	Pardee Way
Applicable Buildings	SOS	DRB, KAP	ZHS	RTH	SOS, WPH	VPD

Missing Participants: Call chaperone contacts or parents to call students. If still missing, call into DPS emergency immediately and report major physical characteristics, identifiers, and last locations.

Medical Emergency: Call 911 and report to the USC SciBAT lead

Mental Health Crisis: Call DPS emergency

Extreme Weather (Extreme Heat, Poor Air Quality): Listen to ambient conditions and forecasts leading into the event. EH&S and student health will lead communications.

Earthquake: Stop, Drop to the floor, Take cover under sturdy furniture, Hold until shaking stops. Be aware of more earthquakes. Evacuate once shaking stops and report to DPS emergency.

Fire Safety: Sound the alarm, leave the building, and call DPS emergency. They will help emergency services navigate into campus.

Active Attacker/Shooter: Run if it's safe, Hide if you can't run, Fight if you can't run or hide. Once at a safe location, call DPS emergency and USC SciBAT Lead.

Report any cases to the Office of Youth Protection. Review Pages 17,18, and 19 for reporting options.

USC Invitational Emergency Management Plan

Covered Activity Information

Covered activity contact info	
Covered activity name	USC Invitational Science Olympiad Tournament
Covered activity administrator (CAA) name	Brian Lam
CAA phone	6264167586
CAA email	blam2217@usc.edu
Sponsoring unit contact person information	
Location(s) where activities take place	
Physical (not mailing) address(es)	3651 Trousdale Parkway, Los Angeles, CA 90089
Nearest major intersection(s)	Trousdale Parkway and Exposition Blvd
Emergency response team	
Who is in charge in an emergency? <i>First and Last Name</i> <i>Role or Title</i> <i>Mobile number</i>	Brian Lam Co-Tournament Director 6264167586
Who are alternate people in charge in an emergency? <i>First and Last Name</i> <i>Role or Title</i> <i>Mobile number</i>	Kevin Giang Co-Tournament Director, Director of Leadership for Viterbi Student Engagement
Unique risks to consider and address	
List all unique risks associated with the covered activity to be discussed/addressed. Note: if the covered activity includes any of the following elements, you must reach out to USC Environmental Health & Safety (ehs@usc.edu) so that they can conduct an assessment: - Swimming - Diving	Laboratory Spaces in SGM, ZHS, KAP Hall with standard Science Olympiad laboratory chemicals

• Contact sports – football • Concussion risk – soccer, football, volleyball • Lab or healthcare spaces • Hazardous equipment	
--	--

Emergency Phone Numbers & Key Contact Information

Include emergency phone numbers and key contact information, and **ensure that staff have saved this information in their phones**. Some information has been included below for you already, but you may need to include other contacts depending on the type of activities you'll be administering, as well as their location(s). You may also want to create a separate staff contact list for communication within the covered activity (see the [Communication](#) section).

Covered activity staff should save Department of Public Safety (DPS) emergency numbers found below, to their phones.

Department/ Agency	Phone number	Website
DPS University Park Campus (UPC) 3667 McClintock Ave Los Angeles, CA 90089-1912	Emergency: 213-740-4321 Non-Emergency: 213-740-6000	https://dps.usc.edu/
DPS Health Sciences Campus (HSC) 2001 Soto Street Los Angeles, CA 90032	Emergency: 323-442-1000	
Emergency or immediate threat to safety	911	
California Poison Control Hotline	1-800-222-1222	https://calpoison.org/
Los Angeles Police Department (LAPD)	Non-Emergency 877-275-5273	
Local Law Enforcement/Sheriff (if outside of LA)	N/A	
LA County Department of Children and Family Services	Child Protection Hotline 1-800-540-4000	https://dcfs.lacounty.gov/
Office of Youth Protection & Programming	213-740-2656	https://protectingminors.usc.edu/
Environmental Health & Safety (EHS)	323-442-2200	https://ehs.usc.edu/
USC Student Health	213-740-9355	https://studenthealth.usc.edu/
SciBAT Safety Lead	626-416-7586	
Southern California Science Olympiad Staff	626-277-9848	

Communication between the USC tournament organizers and parents will be through the head coach of the team. Head coaches should have submitted their contact information on the registration form; in case of emergency, the head coach's number will be on hand and will be the first emergency contact.

Note: in the event of a campus-wide emergency, up-to-date information will be available through several communication vehicles, all of which should be shared with parents/guardians, covered activity staff, and participants (when possible):

- Online: emergency.usc.edu
- On Twitter: twitter.com/USC
- By telephone at 213-740-9233
- [Via TrojansAlert](#) text TrojansAlert to 888777

Site Plan

Include a photo/diagram or at least a list of covered activity locations for your staff. If minors will be in many different locations throughout the day, consider including all locations. On each photo/diagram, it's a good idea to indicate emergency exits, locations of safety/emergency equipment (e.g., AEDs, fire extinguishers, etc.), identified shelter-in-place and evacuation locations, and other pertinent information. For related information for on-campus locations, see the [Building Emergency Fact Sheets](#).

Bovard Administration (ADM)

Emergency kits located in **ADM 304J**

BUILDING EVACUATION ASSEMBLY AREA: **Alumni Park**, in front of the main entrance to Bovard Auditorium

Corwin D. Denney Research Center (DRB)

Emergency kits located in **ROOM 151 INSIDE FIRST AID CABINET**

BUILDING EVACUATION ASSEMBLY AREA: **S/W corner of PSA**, the area on the right side of the main entrance, between DRB, Downey Parking Structure (PSA), and the Screen Dock Theatre (SCD).

Grace Ford Salvatori Hall (GFS)

Emergency kits located outside **conference room 121** in the hallways.

BUILDING EVACUATION ASSEMBLY AREA: **Parking Lot K2**, directly south of the building. Nearby buildings are SGM.

Harris Hall, Quinn Wing & Fisher Gallery (HAR)

Emergency kits located in **HAR 103**.

BUILDING EVACUATION ASSEMBLY AREA: **Exposition at Watt Way (street)**. Watt Way is west of the building, leading to Exposition Blvd.

Hughes Aircraft Electrical Engineering Center (EEB)

Emergency kits located in **ROOM 100 D**

BUILDING EVACUATION ASSEMBLY AREA: **Archimedes Plaza or Epstein Family Plaza**, an outdoor area on the east side of the building. There is a fountain in this area, and buildings nearby include Olin Hall of Engineering (OHE), Vivian Hall (VHE), Biegler Hall (BHE), Hedco Chemical Engineering (HED), and Neely Petroleum Engineering (PCE).

Joseph Medicine Crow Center for International & Public Affairs (DMC)

Emergency kits located in **DMC B35**

BUILDING EVACUATION ASSEMBLY AREA: **Alumni Park**, the largest outdoor space on campus. It is directly south of DMC and in front of the main entrance to Doheny Memorial Library. There is a fountain in the middle of Alumni Park.

Kaprelian Hall (KAP)

Emergency kits located in **KAP 108**

BUILDING EVACUATION ASSEMBLY AREA: **DRB/PSA Walkway**, which is the walkway directly leading into the Downey Way Street. Nearby buildings include DRB, Irani Hall (RRI), and Ginsburg Hall.

Michelson Center For Convergent Bioscience (MCB)

The emergency kits are located in **101-A**.

BUILDING EVACUATION ASSEMBLY AREA: **Childs Way next to SGM**. This is the street with the walkway between SGM and Allyson Felix Field (AFF)

Olin Hall Of Engineering (OHE)

Emergency kits located in **OHE 500**

BUILDING EVACUATION ASSEMBLY AREA: **Epstein Family Plaza**, an outdoor area on the east side of the building. There is a fountain in this area, and buildings nearby include Vivian Hall (VHE), Biegler Hall (BHE), Hedco Chemical Engineering (HED), and Neely Petroleum Engineering (PCE).

Physical Education Building (PED)

Emergency kits located in **115 Supply Closet**

BUILDING EVACUATION ASSEMBLY AREA: **Felix Field and Associated Parks in the area**. Essentially any open grassy space or walking space such as Child's Way and Watt Way will be safe.

Ray R. Irani Hall (RRI)

Emergency kits located in **Suite 201**

BUILDING EVACUATION ASSEMBLY AREA: **Childs Way near SGM**, the walkway between SGM and Allyson Felix Field (AFF)

Ronald Tutor Campus Center (TCC)

Emergency kits located in the **Student Affairs Office (STU 201)**

BUILDING EVACUATION ASSEMBLY AREA: **Trousdale and Child Way**, the adjacent major walks on campus.

Ronald Tutor Hall of Engineering (RTH)

Emergency kits located in **RTH 110A**

BUILDING EVACUATION ASSEMBLY AREA: **Bloom Walk**, the pathway directly in front of the main entrance, on the opposite side to the Tutor Hall Cafe (closed during weekends).

Seely G Mudd Building (SGM)

Emergency kits located in **SGM 502**

BUILDING EVACUATION ASSEMBLY AREA: **Parking Lot K2**, the lot directly adjacent to SGM. This lot is *not to be confused with Downey Way Parking Structure*.

Social Sciences Building (SOS)

Emergency kits located in **SOS 153**

BUILDING EVACUATION ASSEMBLY AREA: **McCarthy Quad**, an adjacent outdoor space that is directly in front of the main entrance. There are walkways in the Quad that make a large X.

Taper Hall of Humanities (THH)

Emergency kits located in **THH 309, THH 356, THH 161**

BUILDING EVACUATION ASSEMBLY AREA: **Founders Park**, the open field directly South of THH, sitting between the administration building (ADM) and THH.

Verna and Peter Dauterive Hall (VPD)

Emergency kits located at the **reception desk in VPD 115**

BUILDING EVACUATION ASSEMBLY AREA: **Pardee Way and Childs Way**, the intersection east of the building. Pardee Way leads to Exposition Blvd. Nearby buildings include Widney Alumni House, Fertitta Hall (JFF), and Lewis Hall (RGL).

Waite Phillips Hall (WPH)

Emergency kits located in the **8th FLOOR ADMINISTRATION OFFICE**

BUILDING EVACUATION ASSEMBLY AREA: **Eastside of WPH**, the area between WPH and McCarthy Quad or Leavey Library.

Zumberge Hall of Science (ZHS)

Emergency kits located in **ZHS 117D**

BUILDING EVACUATION ASSEMBLY AREA: In the event of an evacuation, the building emergency response team (BERT) will guide all occupants **to the Flag pole near George Tirebiter (the dog statue)**.

Fire Safety & Emergency Planning Office – CAL 120 (off campus)

BASIC EMERGENCY PROCEDURES

- In the event of any emergency (fire, earthquake, medical, power outage), for assistance call the Department of Public Safety (DPS) at (213) 740-4321.
- In the event of a fire, sound the alarm by pulling the nearest pull station, leave the building immediately, call the DPS emergency number at 213-740-4321, and meet at the assembly area (See Above).

SHELTER-IN-PLACE PLAN	
Designated Shelter-in-place location(s) (list all)	Shelter-in-place location address/description
ZHS (3rd floor), SGM, THH (2nd floor), DMC, SOS basement rooms, TCC Classroom, TCC Ballroom, PED Gym, GFS, EEB, WPH, OHE, HAR, KAP, VPD, RTH, DRB, RRI	3651 Trousdale Parkway, Los Angeles, CA 90089
Shelter-in-place procedures	
In case of an active shooter: Run, Hide, or Fight. Reference additional information in the Active Attacker/Shooter Plan. In case of an earthquake: Drop, cover, and hold until shaking stops. Reference additional information in the Earthquake Plan • Within 24 hours, contact the Office of Youth Protection and Programming	
Additional considerations for our covered activity	
• Staff and participants will receive a form they must sign outlining these safety procedures • Event supervisors/volunteers will be responsible for contacting the organizers of the event • Organizers of the event will contact head coaches, head coaches will communicate with parents and guardians	
EVACUATION PLAN	
Designated Evacuation Location(s) (list all)	Evacuation location address/description
Dependent on location when evacuation occurs. Areas include: - Flag pole near George Tirebiter (the dog statue) - Parking Lot K2 - Alumni Park - Founders Park - DRB/Downey Way Passageway - Childs Way - Watt Way / Felix Field - McCarthy Quad - Bloom Walk - Exposition at Watt Way (street) - Archimedes Plaza / Epstein Family Plaza - DRB/PSA Walkway - S/W corner of PSA - McCarthy Quad - Childs Way near SGM - Trousdale and Child Way - Pardee Way and Childs Way - Eastside of WPH - Felix Field and Associated Parks in the area	George Tirebiter, Exposition Blvd, Los Angeles, CA 90089 Parking Lot K2: 925 Downey Way, Los Angeles, CA 90089 Alumni Park: 635 Childs Way, Los Angeles, CA 90089 Founders Park: 3551 Trousdale Pkwy, Los Angeles, CA 90089 Downey Way, Los Angeles, CA 90089 DRB: 1042 Downey Way, Los Angeles, CA 90089 Childs Way, Los Angeles, CA 90089 Watt Way, Los Angeles, CA 90089 Felix Field: 3505 McClintock Ave, Los Angeles, CA 90089 Bloom Walk, Los Angeles, CA 90089 Epstein Family Plaza: 950 Downey Way, Los Angeles, CA 90089 PSA/Downey Parking Structure: 3667 McClintock Ave, Los Angeles, CA 90089 McCarthy Quad: 3551 Trousdale Pkwy, Los Angeles, CA 90089 SGM: 3620 McClintock Ave, Los Angeles, CA 90089 Trousdale Pkwy, Los Angeles, CA 90089 Pardee Way, Los Angeles, CA 90089 WPH: 3470 Trousdale Pkwy, Los Angeles, CA 90089

Evacuation procedures
• <i>In the event of a fire do not use elevators or collect personal items</i> • <i>Take attendance of students present in classrooms. Include: names, school, team number</i> • <i>Staff and participants will receive a form they must sign outlining these safety procedures</i> • <i>Event supervisors/volunteers will be responsible for contacting the organizers of the event</i> • <i>Organizers of the event will contact head coaches, head coaches will communicate with parents and guardians</i> • <i>Wait for further instructions from DPS and Fire Safety personnel to evacuate. TrojansAlert may not be sent out, and event supervisors and organizers will also be awaiting their word. Necessary contact information of coaches may be shared to DPS and Fire Safety in order to communicate needs.</i> • <i>Within 24 hours, contact the Office of Youth Protection and Programming</i>
Additional evacuation considerations for our covered activity
• <i>Ensure chemical reactions are not in progress during shelter-in-place/evacuation</i>
REUNIFICATION PLAN
• <i>Schools' head coaches will be contacted by tournament organizers. Head coaches will communicate to parents needs and locations for reunification. Parents of each student and informed of situation</i> • <i>Parents will be given the location of children once students have reached safety.</i> • <i>Attendance of students will be taken when leaving by event supervisors.</i> • <i>Within 24 hours, contact the Office of Youth Protection and Programming</i>
MISSING PARTICIPANT PLAN
1. <i>Pause the current activity, and calmly ask the participants in the minor's school when they last saw the minor, and/or if they know where they may have gone. Search the area briefly (no more than 1-2 minutes). If they are older and have a phone, call the minor. If the minor was expected to head to an event, call the event supervisor or runners in that region.</i> 2. <i>Call for additional staff assistance to maintain required supervision ratios, which will enable a search of the immediate area right away.</i> 3. <i>If the minor is still missing, contact their school representative and parents to determine their location. If the minor has a phone, ask their parents to ensure they are in a safe location and contact the minor.</i> 4. <i>If the minor is still missing, contact the DPS emergency line immediately. If you are off campus, dial 911.</i> • <i>Provide the following information:</i>

- o Name
 - o Hair color
 - o Age
 - o Size/height
 - o Weight
 - o Unique characteristics
 - o When and where they were last seen
5. Notify the CAA and provide them with information provided to DPS/law enforcement.
 6. Within 24 hours, covered activities must contact the Office of Youth Protection and Programming via [this online form](#).
 7. If the minor is found, follow up with all individuals notified, and call off the search.

MEDICAL EMERGENCY PLAN

1. **If a participant is experiencing a medical emergency (there is an imminent threat to their safety or the safety of others), call the appropriate DPS emergency line (if off campus, 911) immediately.**
2. Be prepared to provide the participant's location, nature of their medical emergency (e.g., accident, fall, seizure, etc.) and the participant's current condition and any other information that is requested.
3. If the incident/emergency occurred on campus, contact the DPS emergency line.
4. Contact Brian Lam or Andrew Ton via the phone number in your event supervisor email or on the back of your name card.
5. Do not move the participant unless instructed otherwise, or if they are in immediate danger.
6. If a minor is transported to the hospital, the parents or team supervisor will be requested to be present. If either of these individuals would make the team supervision inapplicable, a tournament organizer will travel with the student.
7. All covered activities should be collecting critical medical information and authorization to treat prior to the start date, and ideally via CampDoc (a form management system); emergency responders/medical staff will need to be informed of any relevant information provided on these forms (e.g., allergies, medications, etc.). If your covered activity uses CampDoc, USC Student Health will be able to securely access their medical information.
8. Within 24 hours, contact the Office of Youth Protection and Programming via this online form.
9. Once the initial emergency has been responded to, consider what actions may be necessary to address the needs/concerns of other minor participants and/or covered activity staff who were not directly involved, but impacted.

MENTAL HEALTH EMERGENCY PLAN

Mental Health Crisis Protocols

If a minor is experiencing a mental health crisis:

1. If the situation is happening or minors are residing on campus, contact DPS immediately.
2. Consult with USC Student Health (if enrolled in the Student Health Fee).
3. Notify the minor's parent/guardian.
4. Within 24 hours, contact the Office of Youth Protection and Programming via [this online form](#). The office will also coordinate with other campus partners and resources to help support you.

EARTHQUAKE PLAN

In the event of an earthquake:

1. **DROP** - Drop to the floor, avoiding any falling objects or toppling furniture.
2. **COVER** - Take cover under a desk, table or other sturdy piece of furniture. If no such furniture is present, seek cover against an interior wall while protecting your head with your arms. Avoid windows, hanging objects, mirrors and tall furniture.
 - For people with disability DROP, COVER, and HOLD ON or sit on a chair, bed, etc.:
 - If on wheelchair, or walker, lock your wheels and lower as much as possible. Cover your head and neck with both hands. Keep your cane near you so it can be used when the shaking stops.
 - For more information regarding planning for special needs individuals use [Earthquake Country Alliance: Welcome to Earthquake Country!](#)
3. **HOLD ON** - If you take cover under furniture, hold on tight and be prepared to move with it. Do not release until the ground stops shaking.
 - **Do not** run outside.
 - **Do not** go to a doorway. (Doorways are no safer than other spaces, and a swinging door can cause injury).
 - **In a hallway**, drop near an interior wall away from windows. Protect the back of your head/neck with your arms.
 - **If driving**, pull to the side of the road and come to a stop. Stay in the car.
 - **In an auditorium**, drop to the ground between the seats. Protect the back of your head/neck with your arms.
 - **Outdoors**, move away from buildings to an open area; avoid power lines.
 - **In bed**, stay there, and protect your head with a pillow.

When the Shaking Stops

- Check for injuries to people in the area.
- Call for medical assistance and render first aid if required. This can be done by calling the organizers for the event.
- Check the area for hazards such as building damage, fires or gas leaks. If the building appears to be unsafe, leave the building and report any urgent problem.
- Listen to a battery-operated radio for emergency information.

Earthquake Aftermath

- Be prepared for more quakes.
- Wear sturdy shoes to avoid injury from broken glass.
- Do not use elevators.
- Assist others in the area.
- Report injuries or damage to the nearest emergency response team or to the USC Department of Public Safety.
- Evacuate the building. Do not re-enter until it has been assessed for damage and deemed safe by inspectors.

While evacuating, observe the following procedures:

- Turn off all electrical equipment.
- Bring emergency supplies and purses/wallets with you.
- Do not leave anyone behind. Assist those with disabilities
- Close all doors behind you.
- Use the stairs only. Never take the elevator.
- Assemble in a safe outdoor area and ensure all individuals covered under the Covered Activity Act present at the event site are accounted for. Report any Missing individuals immediately following the steps identified in "Missing Minor Participants" in this guide.

- *For event supervisors, contact the tournament director in order to notify parents of a missing child.*
- Cooperate with emergency response teams.
- Within 24 hours, contact the Office of Youth Protection and Programming

EXTREME WEATHER & AIR QUALITY EMERGENCY PLAN

1. Tournament organizers will monitor the ambient conditions and forecasts prior to the program and throughout the program duration. Environmental Health and Safety (EH&S) and Student Health will serve as resources leading up to the event to determine the safety of such an event.
2. Coaches and chaperones will direct particularly sensitive individuals on whether or not they will be available to attend the event in the case where extreme weather or air affects what is possible at the tournament.
3. Outdoor tournament events and base camps will be notified to move or halt if necessary prior to the event.
4. Teams will be in charge of ensuring everyone from their school is hydrated and safe in particular weather settings. Organizers will be in charge of ensuring the volunteers are hydrated and safe during particular weather settings.

- Within 24 hours, contact the Office of Youth Protection and Programming

HIGH HEAT CONDITIONS

Level 1/Condition: High Heat (90° F)

- Required to train employees and athletes on heat emergency action plan
- Provide rest/shade/water
- Follow acclimatation plan
- Monitor temperature using weather app, etc.
- Monitor participants and employees at increased risk

Level 2 Condition: Heat Advisory (95° F)

- Monitor individuals more closely and frequently
- Consider moving activities indoors, consider canceling or rescheduling outdoor activities planned between 10am and 4pm
- Modify or cancel outdoor athletics events

Level 3 Condition: Excessive Heat Warning (105 ° F)

- Provide cooling centers including sleeping facilities for participants in facilities with no air-conditioning.
- Suspend outdoor activities

AIR QUALITY CONDITIONS

Level 1 Condition: Unhealthy for Sensitive Groups, AQI 101-150

Members of sensitive groups may experience health effects. The general public is less likely to be affected.

- Develop individual response to those at increased risk

Level 2 Condition: Very Unhealthy, AQI 201-300

Health Alert: The risk of health effects is increased for everyone. The following groups should avoid all outdoor physical activity: People with heart disease, pregnant women, children and older adults, people with lung disease, such as asthma. Everyone else should avoid prolonged or heavy outdoor activity

- Suspend outdoor activities
- Collaborate with health services to address potential respiratory issues.

Level 3: Hazardous, AQI 301-500

Health warning of emergency conditions: everyone is more likely to be affected.

- Suspend outdoor activities
- Implement indoor curfew for campus community

FIRE SAFETY PLAN

Learn about [fire emergency procedures](#) from the Office of Fire Safety and Emergency Planning, which outline the following protocols:

If You Discover or Suspect a Fire

1. **SOUND THE ALARM:** If you can't find a fire alarm in the building, warn other occupants by knocking on doors and shouting a warning as you leave.
2. **LEAVE THE BUILDING:** Do not stop to gather your belongings. Close all doors as you exit. Stop to help others only if you can do so safely.
3. **CALL FOR HELP:** Call the Department of Public Safety at [\(213\) 740-4321](#) (UPC) or [\(323\) 442-1000](#) (HSC). Give as much information as possible to the emergency dispatcher. Stay on the line until the dispatcher ends the call.

Fire Evacuation Procedure

When a fire alarm sounds, all occupants must exit the building immediately.

Even if you think it may be a false alarm, you must leave.

- Go to the nearest exit or stairwell. If access is obstructed by smoke or flames, go to an alternate exit route.
- If you smell smoke, stay low. Inhaling heated air and smoke can bring unconsciousness in less than a minute. To protect yourself, cover your mouth and nose with a piece of cloth.
- Never use elevators during a fire evacuation. They may stop automatically, and you could be trapped.
- Move down the stairs carefully. Do not attempt to turn back.

- Assemble with other evacuees at least 100 feet away from the building.
- Confirm that someone has called DPS.

ACTIVE ATTACKER/ SHOOTER PLAN

As detailed on USC's DPS Active Shooter [Webpage](#), in the event of an active shooter, the USC Department of Public Safety advises all members of the campus community to follow the **RUN • HIDE • FIGHT** protocol, widely established as the recommended response plan among law enforcement professionals. This protocol entails the following:

- **Run:** Leave personal belongings, time is of the essence to get to safety.
- **Hide:** Stay out of view, silence phones completely including turning off vibration mode and hiding the lighted screen. When securing doors use belts, cords, or other extenders to keep out of direct range of the door.
- **Fight:** If you have no choice, fight the attacker using objects that can serve as weapons. If you are with others, work as a group to disarm the attacker until help arrives.

If running, if it is safe to do so, escape from the building to a safe location and call DPS (213-740-4321). Encourage others to run, but do not hold yourself back if they resist.

If hiding, remain in place with all doors locked and lights turned off. Hide underneath tables and desks away from windows. Barricade doors, remain quiet until notified that it is safe to leave the building. Turn off sound from cell phones and devices. Do not huddle close together to avoid becoming one larger target. Identify potential improvised weapons in the need for self defense.

If fighting, act in aggression with improvised weapons. If you are with others, work as a group to disarm the attacker until help arrives.

Contact tournament directors once at a safe location. Tournament directors will communicate with all head coaches about the event and the location of the active attacker.

Outdoors: Run from the attacker / shooter area to other parts of campus until safe. Make sure hands are free so officers will identify you as a civilian.

Contact tournament directors once at a safe location. Tournament directors will communicate with all head coaches about the event and the location of the active attacker.

Following evacuation, take headcount of all the students and assemble in a safe location outside, given by tournament directors. Coordinate with first responders if necessary and contact tournament directors to inform parents and guardians to pick up students.

- Have all staff (and participants, if appropriate) signed up for/updated their contact information in TrojansAlert and downloaded the LiveSafe App (see [Related Safety Information and Resources](#) section for instructions)?
- How will you communicate with other staff and parents/guardians? This is an emergency situation that emphasizes the importance of constant, adequate and active supervision of minor participants. An active shooter situation can occur at any moment, and you need to know where your participants are so that you can communicate this to parents, if it happens.
- Does your plan address the needs of individuals with disabilities?

Is your training/preparation trauma-informed? Staff and participants may have experienced trauma related to gun violence that should be taken into consideration.

- Within 24 hours, contact the Office of Youth Protection and Programming

IV. After an Emergency

Following an emergency, it's important to evaluate the impact and needs of both participants and staff, and to review and revise emergency plans based on what you learned – what went well, where there are gaps, and areas you should strengthen. It is also important that all involved – directly or indirectly – have access to the support and resources they may need.

Supporting youth and covered activity staff after an emergency

After any traumatic event, it can be challenging to return to a sense of normalcy or routine, yet this can be particularly important following a traumatic event. Youth and/or staff may also require additional support, mental health counseling, or medical attention. Be sure to check in with your participants, their parents/caretakers, your staff, and especially yourself. The Office of Youth Protection and Programming can help coordinate and compile available campus resources that may be available to all who were impacted.

V. Related safety information and resources

DPS Website

The DPS ONE USC Safety [website](#) contains additional, important related to emergency management – some of which is included in this guide.

LiveSafe Mobile Safety App

All covered activity staff (and participants depending on age) should have the LiveSafe on their phones.

LiveSafe, managed by the USC Department of Public Safety and the USC Department of Emergency Planning, is a free downloadable app that mobile users can use to initiate contact with emergency responders around the University Park and Health Science campuses. Features include:

1. Immediate “push button” calls to either the Department of Public Safety or 9-1-1 for immediate response during an emergency
2. Anonymous messaging for reporting suspicious activity, crimes in progress, or any safety concerns
3. SafeWalk allows for friends or family to virtually escort you from place to place

To download the app:

- ? Download the “LiveSafe” app from the [Apple App Store](#) or [Google Play](#)
- ? Create a user profile to log in
- ? Select “University of Southern California” as your school

TrojansAlert

All covered activity staff, parents/guardians, and participants (depending on age) should sign up for TrojansAlert, the emergency notification system that allows USC to contact subscribers during an emergency by sending messages via text and email. While those affiliated with USC (employees/students) will be automatically subscribed, unaffiliated parties (minor participants, parents/guardians, etc.) may need to sign up for them separately [here](#).

VI. USC Reporting Requirements

All involved in covered activities will receive training about their reporting requirements under applicable USC policies.

Mandated reporters of child abuse and neglect, and other serious concerns or violations relating to minors

USC policy requires that all university employees and covered activity staff, regardless of whether they qualify as Mandated Reporters under the law, immediately report suspected child abuse and neglect, as well as all other serious incidents or violations relating to minors (e.g., accidents, grooming behavior, etc.), to the appropriate external agencies and University officials as described in [USC's Protecting Minors Policy](#) (see Section I. Reporting Requirements) and outlined below, for reference.

Under USC policy, the following reports must be made in cases involving minors:

Child Abuse and Neglect

If there is an imminent threat to health or safety, contact 911 before following the steps below:

1. Immediately report the matter to the Department of Children and Family Services (DCFS) by calling the Child Protective Services Hotline (available 24 hours, 7 days per week) Toll-free within California: (800) 540-4000 From outside California: (213) 639-4500 TDD (Telecommunication Device for the Deaf): (800) 272-6699
2. Immediately following a report to DCFS, and within no more than 24 hours, submit notice to the Office of Youth Protection and Programming by completing the instructions [outlined on our website](#) and in the policy.
3. Within 36 hours of the initial telephone report, file a written report with DCFS by completing and submitting Form SS8572 (Suspected Child Abuse Report or "SCAR") found [here](#), as indicated during the call with DCFS.

Reporting Other Serious Concerns and Violations Relating to Minors

As soon as possible, and within no more than 24 hours after becoming aware of the original concern, report all other serious concerns and violations relating to minors to the Office of Youth Protection and Programming by following the [instructions on our website](#). This may include near-misses, accidents, grooming behavior/boundary violations, and all emergencies included in this guide.

Refer to the Office of Youth Protection and Programming's [Reporting webpage](#), for more information.

Campus Security Authorities

Due to their significant responsibility for the oversight of campus activities, Covered Activity Administrators are considered Campus Security Authorities (CSA) under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (20 U.S.C. § 1092 (f)) ("Clery Act"), and will be provided education about their responsibilities prior to the start date of their registered Covered Activity. For more information about these responsibilities, including the full definition of a CSA, see [USC's Clery policy](#).

Designated Employees

All faculty and non-confidential USC staff are considered "Designated Employees," according to USC's [Policy on Prohibited Discrimination, Harassment and Retaliation](#). Additionally, student employees with supervisory roles, resident assistants, teaching assistants, graduate assistants, and research assistants also are considered Designated Employees when performing the duties of their role.

Designated Employees are required to immediately report potential discrimination, harassment, and retaliation related to a protected characteristic to USC's Office for Equity, Equal Opportunity, and Title IX (EEO-TIX) office to ensure that the University has a comprehensive process for coordinate appropriate and

timely responses to reports of this nature. For more information about these Designated Employee responsibilities, please visit the [EEO-TIX website](#). These reporting requirements are in addition to those outlined in USC's [Protecting Minors Policy](#)

VII. USC Campus Partners

This resource was developed by the Office of Youth Protection and Programming, in collaboration with the following campus partners:

- USC Department of Public Safety (DPS)
- USC Office of Fire Safety & Emergency Planning
- USC Student Health
- USC Environmental Health & Safety
- USC's Youth Protection Working Group

Debriefing Questionnaire for Emergency Events

Section 1 – Situation Overview

Emergency situation:

Date(s):

Brief description of the situation/what happened and the response:

Section 2 – Response

Were the protocols followed (why/why not):

Section 3 – Updates and Training

Does the emergency management plan need to be updated, or do we need to provide additional training?

If yes, indicate the updates to be considered/included, and who will be responsible for implementation:
